

EX

A full-fledged, highly scalable and multi-functional online securities trading system especially designed for Equity Brokers.

Top Reasons To Use EX

Multi-Asset Trading

A highly scalable online trading platform which supports all securities types listed in Hong Kong Stock Exchange, including Equities, Warrants, CBBC, ETFs, REITs. Add-on modules for China-HK Stock Connect and Global Markets are also available.

HKEx Certified

The EX software has passed the certification tests of HKEx Orion Central Gateway (OCG) and Orion Market Data (OMD-C) platform, which enabled GES to become one of the few independent software vendors who have passed the both tests.

Various Order Types cater for Different Investment Strategies

EX supports multiple conditional orders include OCO, MIT, Stop Loss, Up Trigger, Down Trigger, etc. Brokerages can predefine trading rules to manage multiple clients' portfolio systematically.

Interface to Third Party Back Office Settlement System

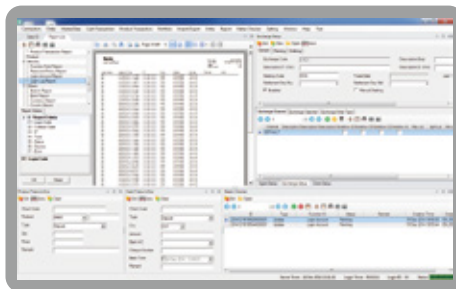

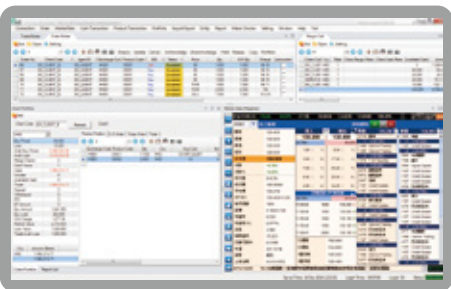

The customizable interface of EX can be seamlessly integrated with third-party back office settlement systems with batch job or real-time synchronization, giving your clients the updated portfolio and cash balances in the next trading day.

Enhance Efficiency in Risk Management

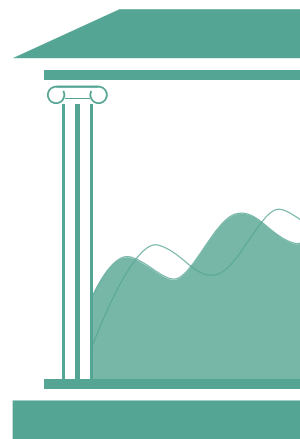

EX delivers reliable risk management with the complete control of credit line, margin level, trade limit, access rights and user group settings. Auto alert will be sent to relevant AE or Credit Controllers to reject or override all trading activities.

Key Benefits

- Support multi products including Equities, Warrants, CBBC, ETFs, REITs.
- Multiple order types cater for different investment strategies
- Easy integration with Third Party Back Office Settlement System for smooth operational process

- Various types of financial reports are available to satisfy compliance requirements
- Add-on modules for China-HK Stock Connect, Global Markets and Futures are available

- Comprehensive set of features in order execution and risk management.

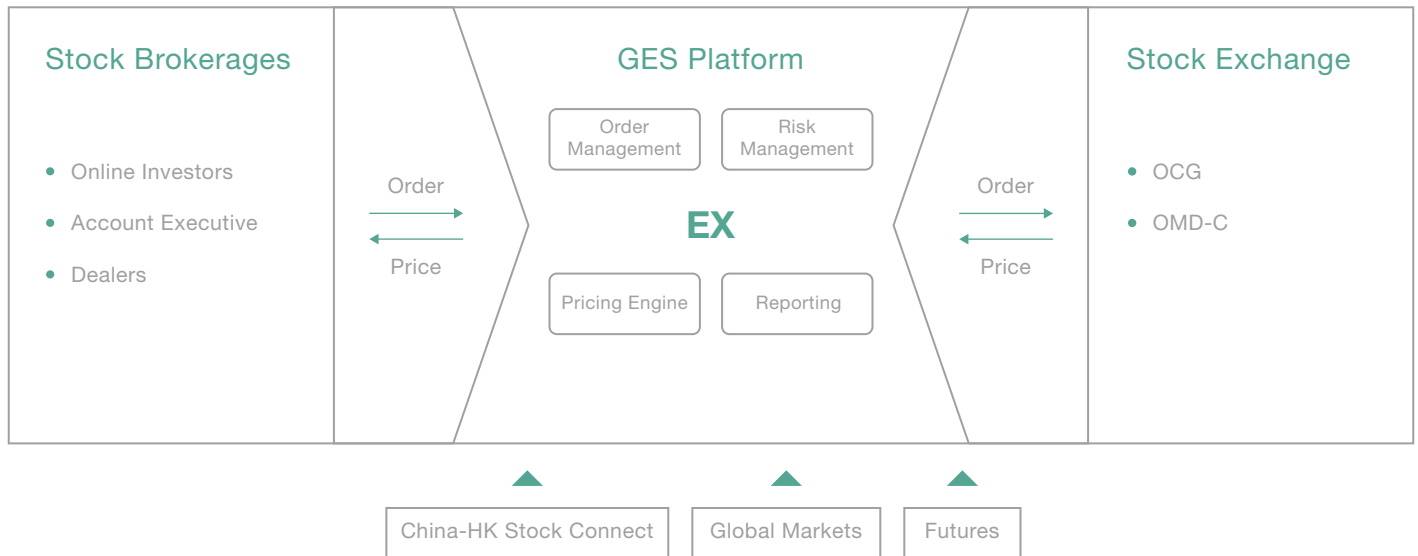

EX

Trade Flow

Add-on Modules

China-HK Stock Connect

Optional module for Shanghai or Shenzhen to Hong Kong Stock Connect can be easily added to the core system of EX to provide feasible cross-boundary connectivity and cater for your specific business needs.

Global Markets Trading

Our FIX gateway supports global trading across markets by allowing EX to access to your dedicated counterparties or overseas stock exchanges directly, enabling you to trade over multi-markets from a single platform efficiently.

Futures and Index Options

The connect to HKFE OMnet Application Programming Interface (OAPI) is allowed to trade HKFE futures products including commodity futures, currency futures, index futures and options, interest rate futures, and stock futures.

Stock Options

Stock Options is another custom add-on module for customers who are seeking flexible investment tools for the purpose of leveraged trading in up and down market, reducing transaction costs, hedging market risks as well as locking profit.

About GES

Global eSolutions (HK) Limited ("GES") is a global leading provider dedicated in financial technologies for more than 10 years.
