

TX-Cloud

The most simple and easy-to-setup STP solution especially designed for A-Book brokerages

Top Reasons to Use TX-Cloud

Access Inter-bank Liquidity

With TX-Cloud, brokerages are able to access inter-bank liquidity providers and world class ECN, getting the Best Bid and Offer (BBO) in no doubt. TX-Cloud enables new brokers to minimize their time to market and existing brokers to add new liquidity providers readily.

Close to Zero Latency

The core of TX-Cloud is located in NY4 GES Cloud Bridge Server with xConnect to world class ECN and institutional liquidity providers. By leveraging GES infrastructure, brokerages can benefit from the possible “zero” slippage on auto-cut order and limit order, effectively minimize the risk when the market is highly fluctuating.

Quick to Setup

TX-Cloud is a simple plug-in which can be installed on MT4 server directly without additional software and hardware requirement, helping you to eliminate the cost and resources to owe a dedicated bridge server.

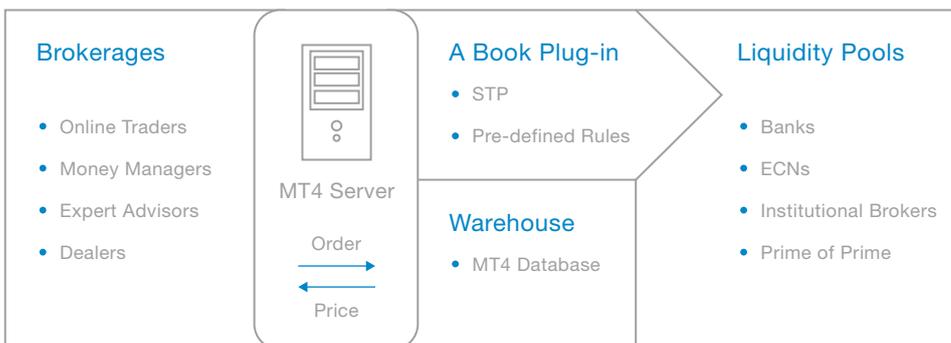

Easy to Use and No Learning Cycle

With TX-Cloud, your orders will follow your pre-defined rules instantly through STP to Top Tier liquidity providers. All complex jobs are handled by GES’s technology, giving the brokerage a peace of mind during order routing and execution.

Key Benefits

- Fast installation, easy-to-use, no learning cycle
- No additional software and hardware requirement
- Effectively reduce the slippage on stop and limit orders
- Support any asset class that MT4 supports
- Optional useful plug-in such as special cut position setting, check margin for pending order
- Optional dedicated leased line to top-tier ECNs or Liquidity Providers

Trade Flow

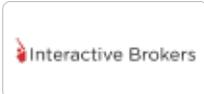

Liquidity Partners
